EDUCATION

UC Berkeley - M.E.T. Program

Berkeley, CA

M.S. in Computer Science, emphasis in Artificial Intelligence

Aug. 2024 - May 2025

B.S. in Electrical Engineering and Computer Science, B.S. in Business Administration

Aug. 2021 - May 2024

- **GPA:** 3.93/4.00
- **Honors:** EECS Honors Program, Dean's List, Eta Kappa Nu Honor Society, Tau Beta Pi Honor Society
- **Relevant Coursework:** Algorithms, Artificial Intelligence, Computer Architecture, Data Structures, Databases, Machine Learning, Operating Systems, Probability, Statistics, Stochastic Processes, Advanced LLM Agents

EXPERIENCE

Google

Mountain View, CA

Software Engineer

Aug. 2025 - Present

Google

Kirkland, WA

Software Engineer Intern

June 2024 - Sep. 2024

- Built a dashboard that displays the number, status, and types of ChromeOS licenses a customer has purchased
- Created a filter feature enabling customers to view and analyze their license purchases by type
- Split back-end data types to show customers which licenses are renewable, supporting better purchasing decisions

Apple

San Diego, CA

Software Engineer Intern

Mar. 2024 - June 2024

- Created a live data-processing pipeline to collect, aggregate, and label error reports from multiple sources
- Integrated data pipeline into a machine learning triage tool to automatically direct bugs to the correct team
- Service actively used by internal customers, processing 100,000+ historic error reports within 1 month of launch

Cerevox

Sunnyvale, CA

Software Engineer Intern

Sep. 2023 - Dec. 2023

- Developed code for Cerevox's data ingestion and normalization platform; introduced a seed coordination and flakeID generation service, enhancing traceability of requests within the distributed platform
- Created a custom parser to convert unstructured data into JSON format using ASTs, integrated into existing API

University of California, Berkeley

Berkeley, CA

Teaching Assistant (TA) - CS 188 Artificial Intelligence

June 2023 - May 2025

- Assisted in running a class of over 700 students on AI topics including neural nets, RL, MDPs, and HMMs
- Taught weekly 35-student discussion sections, rated 4.8/5 on average by students for teaching effectiveness
- Directed development, testing, and grading of fairer exams, resulting in a improvement in course ratings

Undergraduate Research Assistant - ACE Lab (advised by Professor Narges Norouzi)

Jan. 2023 - Dec. 2023

- Published a paper about AI/ML pedagogy in R1 universities, accepted into the FIE 2024 Conference
- Developed randomized, autogradable question-generator tools for PrairieLearn (open source assessment platform)
- Deployed a beta version to instructional servers and conducted pilot studies with 30 study participants

COMMUNITY & LEADERSHIP

AirOver

Porto, PT

Cofounder, CEO

July 2022 - Aug. 2022

- Founded an online travel agency that generated multi-day layover itineraries for budget-friendly travel
- Oversaw engineering, product, and marketing team to design and deploy MVP within 1 month
- Won grand prize for the 2022 European Innovation Academy and invited to interview for 500 Global accelerator

ADDITIONAL

Advanced: Python, Java, C, C++, Git, Machine Learning, Statistics, NumPy, PyTorch, pandas, JupyterLab

Familiar: Javascript, Typescript, React, SQL, Linux, AWS, Docker, Kubernetes, Postgres, Redis, Agile, Scrum
